

The Offshore Norway, Baltic & Barents Seas Energy Map

with map launch planned for

Our new Offshore Norway, Baltic and Barents Sea Activity Map, outline layout above, presents current and future oil and gas fields and their associated infrastructure, including LNG facilities, PLUS all offshore renewables and inter-connector projects..

The map will be officially launched, with free distribution at the 2020 Offshore Northern Seas conference and exhibition.

The Offshore Norway, Baltic and Barents Sea Energy Map includes:

Regional Coverage:

Offshore Norway, Denmark, Sweden, Finland, Russian States (also in part: Holland, UK & Germany)

Topical Coverage:

- Operational & Future Offshore Oil and Gas and Condensate Fields
- Operational & Future Offshore Oil and Gas Fixed, Floating & Subsea Installations
- Offshore 'Pools' and Marginal Fields, Discoveries
- Offshore Licence Blocks – Operated and Non-operated including Norwegian latest rounds
- Operational Major Pipelines AND Power Lines
- Operational and Future Renewables and Inter-connector power lines
- LNG facilities and terminals

Geographical Coverage;

- Countries and Median Lines
- Offshore Bathymetry
- Major Cities, Towns and Ports

With over 30+ year experience in the publication and release of concise offshore oil and gas activity maps, many of which have now become industry standard reference sources, we feel this new map will be equally sought after.

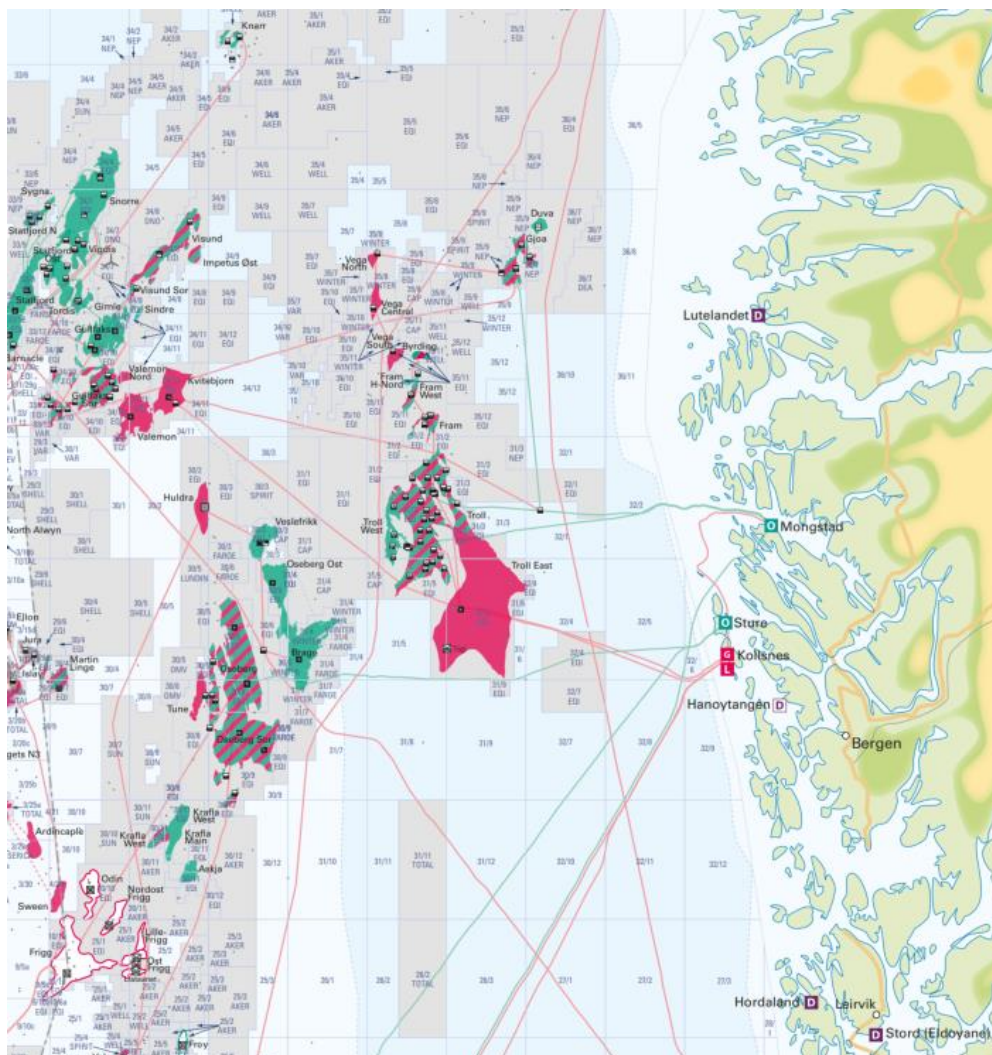

This new Offshore Norway, Baltic & Barents Seas Activity Map will be the latest in a series of fresh, topical and informative, user-friendly wall maps, again aimed at the decision makers within: project instigators – including NOC's and Operators, the offshore supply chain, investors and financiers and further associated industries, informing the status of offshore oil, gas and marine related projects and future activity.

As in the past, all maps published will be launched at related major industry events, ensuring direct distribution to a targeted audience. History, and experience, has proven – freely distributed project reference material is eagerly sought after and received.

To target your company at these decision makers and optimise response from this focused audience, please give serious consideration to advertise within our oil and gas mapping products.

We hope this new map is of serious interest for inclusion within your companies 2020 media plan.

Sample section taken from the new map -

Initial Distribution:

First copies of the map will be launched at the **ONS** event, Stavanger, Aug/Sept 2020.
