

The Northwest Europe Offshore Decommissioning Activity Map THIRD EDITION (2021)

The following layout will be used, based on the current map

Following the hugely successful publication and release of the SECOND edition Northwest European Offshore Decommissioning Map (shown above) in November 2019, a planned THIRD edition will be published in October 2021.

Fully updated, clear and concise wall map reference, covering the complete regions offshore decommissioning projects status, including projects already completed and removed, fields approaching late-life, those with active, planned and future activity will all be highlighted.

With release planned for November 2021 to coincide with the Offshore Decommissioning Conference, organised by the Decom North Sea and Oil and Gas UK. GreySellsGlobal will again have a dedicated distribution point.

This new map will continue the series of fresh, topical and informative, user-friendly wall maps, again aimed at the decision makers within: project instigators – including NOC's and Operators, the offshore supply chain, investors and financiers and further associated industries, informing the status of offshore oil, gas and marine related projects and future activity.

As in the past, all maps published will be launched at related major industry events, ensuring direct distribution to a targeted audience.

With over 30+ year experience in the publication and release of concise offshore oil and gas activity maps, many of which have now become industry standard reference sources, we feel this new map will be equally sought after.

This new Northwest Europe Offshore Decommissioning Activity Map will be the latest in a series of fresh, topical and informative, user-friendly wall maps, again aimed at the decision makers within: project instigators – including NOC’s and Operators, the offshore supply chain, investors and financiers and further associated industries, informing the status of offshore oil, gas and marine related projects and future activity.

As in the past, all maps published will be launched at related major industry events, ensuring direct distribution to a targeted audience. History, and experience, has proven – freely distributed project reference material is eagerly sought after and received.

To target your company at these decision makers and optimise response from this focused audience, please give serious consideration to advertise within our oil and gas mapping products.

We hope this new map is of serious interest for inclusion within your companies 2021 media plan.

Advertising will be available within this map, charged at the following rates:

Square	100mm x 100mm image area	Space cost	GB£1,750.00	Cost inclusive of 25 printed maps for your company distribution
