

## The Northwest Europe Offshore Decommissioning Activity Map THIRD EDITION (2021)

The following layout will be used, based on the second edition map, advert positions adjustable

Sample section of the (second edition) map, full project updates planned:

Following the hugely successful release of the 2019 edition, a fully updated and revised THIRD edition will be released in **May 2021**.

**Major decommissioning events planned for launch and distribution.**

---

A fully updated, clear and concise decommissioning projects reference map, covering the complete NW Europe region offshore decommissioning projects status, including: Active decommissioning projects; Fields approaching late-life, Planned and future activity; and fields already decommissioned to date.

New highlighted projects to include: Onshore Terminals with Decommissioning and Late Life Renewables Fields.

With initial **FREE MAP DOWNLOAD** digital image release planned for May 2021 to coincide with the **DNS Decom Week** event, and printed maps launched at **Offshore Europe-The Decom Zone**, **TotalDECOM Expo** and the **OGUK Offshore Decommissioning Conference**. GreySellsGlobal will again have targeted distribution points.

This new map will continue the series of fresh, topical and informative, user-friendly wall maps, again aimed at the decision makers and project instigators – including NOC's and Operators, the offshore supply chain, investors and financiers and further associated industries, informing the status of offshore oil, gas and marine related projects and future activity.

As in the past, all maps published will be launched at related major industry events, ensuring direct distribution to a targeted audience. All maps available FREE from our web site – hard copy or high resolution digital image formats.

Regional Coverage:

UK, Ireland, Norway, Denmark, Holland, Germany, Belgium & France.

**Highlighted Decommissioning Projects Status:**

Featured decommissioning project status highlighted within the map -

**Active Decommissioning** - active onshore and offshore activity

**Planned Decommissioning** - active plans and/or ceased production, no offshore activity started

**Shut In and COP Infrastructure**

**Late-Life** – All projects within possible 5 years end of field life

**Already Fully Decommissioned Fields** - offshore activity completed

**Topical Coverage:**

**Depleted Oil and Gas Fields**

**Fields with Removed Structures**

**Onshore Decommissioning Facilities** - with Decommissioning/Disposal/Liquid Storage capability –

With active licence / under development / possible status

Established offshore oil, gas and renewables infrastructure

Fixed, Floating and Subsea field development infrastructure type

Operational Major Pipelines and Trunklines

Well Locations

Offshore Licence Blocks – Operated and Non-operated - quadrants with quadrant number

**Market Forecast:**

Late Life to CoP Fields, five-year trends and forecast

**Geographical Coverage:**

Countries and Median Lines Offshore Bathymetry Major Cities, Towns and Ports

Print run: 2000 copies – all advertisers receive voucher copies

Advert Copy Deadline: **End of April 2021**

---

With over 30+ year experience in the publication and release of concise offshore oil and gas activity maps, many of which have now become industry standard reference sources, we feel this new map will be equally sought after.

This new Northwest Europe Offshore Decommissioning Activity Map will be the latest in a series of fresh, topical and informative, user-friendly wall maps, again aimed at the decision makers within: project instigators – including NOC's and Operators, the offshore supply chain, investors and financiers and further associated industries, informing the status of offshore oil, gas and marine related projects and future activity.

As in the past, all maps published will be launched at related major industry events, ensuring direct distribution to a targeted audience. History, and experience, has proven – freely distributed project reference material is eagerly sought after and received.

To target your company at these decision makers and optimise response from this focused audience, please give serious consideration to advertise within our oil and gas mapping products.

We hope this new map is of serious interest for inclusion within your companies 2021 media plan.

**Advertising will be available within this map, charged at the following rates:**

<b>Square</b>	100mm x 100mm image area	Space cost	<b>GB£1,750.00</b>	Cost inclusive of 25 printed maps for your company distribution
